

Experience

Extend — Technical Content Writer

Sep 2026 – present

- Longform blogs and case studies.

Fern — Content Lead

Jun 2025 – Sep 2026

- Owned all developer documentation across Docs and SDK products; shipped and maintained documentation across 9 programming languages using docs-as-code workflows (GitHub, Markdown) and AI automations.
- Owned information architecture and content strategy; validated product configuration flows firsthand to ensure accuracy and built reusable content patterns that scaled across languages and features.
- Drove technical content marketing supporting pipeline growth and product launches. Blog posts, social media content, customer case studies (written + video, 5 published).

Misc Freelance Projects — Technical Writer Consultant

Mar – Jul 2025

- **Class Constructor Corp:** Created product demonstration videos, wrote user guides, and advised on documentation strategy for a server-side tagging product. Class Constructor Corp is a small engineering consultancy building features for Usercentrics (consent management platform).
- **Dowling Community Garden:** Wrote payment processing and migration documentation as the organization moved from a physical to digital payment processing system.

Google — Senior Technical Writer, Google Search

Jul 2018 – Dec 2024

- Lead writer on internal developer documentation for ~1,500 engineers building Local Search features and infrastructure. Wrote high-level overviews, concept docs, codelabs, and end-to-end development instructions using Markdown, HTML, CSS, and GitHub-like version control systems. Documented Java, Python, and C++ code to support engineers and product managers of varying experience levels. Analytics and user studies showed my documentation initiatives resulted in a more self-serve onboarding and development process.
- Lead writer for AI Overviews, a critical 2023/2024 priority for Search available in 100+ countries and locales and serving over 1 billion users. Designed, wrote, reviewed, and refined model training data; addressed model training losses and biases.

Education

The College of William and Mary — B.A.

Aug 2014 – May 2018

- summa cum laude
- Double majored in English and Accounting; minored in Computer Science
